

CITY UTILITIES DESIGN STANDARDS MANUAL

**Book 6
CADD Standards (CADD)
CADD8 Standard Drawings and Details**

June 2015

CADD8.01 Purpose

This Chapter establishes the Standard Drawings and Details as related to Computer Aided Design and Drafting (CADD) work performed by or for City Utilities Engineering (CUE).

The Standard Drawings and Standard Details shall be used in conjunction with all other chapters of the City Utilities Design Standards Manual, as applicable.

CADD8.02 General

The Standard Drawings and Details are available in Adobe Acrobat Portable Document File (PDF) and Autodesk review design file (DWF) format. Refer to <http://www.cityoffortwayne.org/utilities/design-and-construction/standard-details.html> for a list of Standard Drawings and Standard Details available.

The appropriate Standards Drawings and Details are to be used as part of the Project Documents related to the CUE project.

The details are expected to be used as presented. When a special detail is created, it must not conflict with other requirements in the Standards, other CUE Standard Drawings and Details, or NCS guidelines.
