

Fort Wayne City Utilities Hydrant Flow Test Data Request

Submit form to both: 1) Shane Miller 260-427-2204 Shane.Miller@cityoffortwayne.org
2) Michael Saadeh 260-427-5118 Michael.Saadeh@cityoffortwayne.org

Date: _____

Name of requestor: _____

Company: _____

Email: _____

Direct phone number: _____

Requesting Party:

- Fire Design Company Insurance Underwriter Developer or Agent
- Other (describe): _____

Target address: _____

You must provide a street number and street name. If an address has not been determined then please use address block range (i.e.: 5400 blk. E. Capital Blvd.), to describe address. No street intersection crossing's please.

Purpose for flow test data (check the item that applies):

- NEW DESIGN
- RE-DESIGN (existing system in place)
- JOB COST BID
- INSURANCE (insurance underwriting purpose; loss casualty)

Notice:

- Please allow three (3) business days for a response.
- If no flow test data exists for the target location, a flow test will need to be scheduled by City Utilities.
- A new flow test may take up to two (2) weeks to complete, depending on activities and conditions within the water distribution system and availability of Utility personnel.
- A last moment request does not constitute an emergency on City Utilities' part to perform a flow test. Please plan to attempt to submit with as much advance notice, as possible.
- No flow tests are performed when weather is at or below freezing conditions (32°F) – this is common for the months of December-February.
- Flow tests are handled on a case-by case-basis, at the discretion of City Utilities.
