Reimbursement Contacts
A contract may include a reimbursement clause which would allow for a prorated reimbursement to the contributor to this contract in the event new tap/direct connection to the sewer system occurs by a property that is not part of this development proposal. The reimbursement clause would apply only to real estate adjacent to the sanitary sewer main extension. Please indicate if you feel this contract qualifies as a reimbursement contract? Yes \square No \square The Utility will make the final determination if the contract does qualify for reimbursement of costs.
Name of party to receive reimbursement:
Address:
Note: If the Utility is participating in oversizing the main, it will be necessary for you to submit three itemized

quotes that include both the base bid and the oversizing bid. The Utility must review and approve the bid tab/format prior to the project going out for bid. City approved non-collusion affidavits will also be required.
