

Protecting Neighborhoods

Sunny Meadows Stormwater
Improvements Phase 1
February 9, 2026

Introductions

- Nick Rupley – City Utilities – Construction Manager
- Anna Belle Evans – City Utilities – Design Manager
- Kelsey Pfefferkorn – Construction Manager – Krafft Water Solutions

Project Area

Mobilization and Staging

- Preconstruction Video Cameraman
- Construction Staking & 811 Utility Flag Locates
- Contractor Moves Equipment Onto the Site
- Finds Suitable Locations for Construction Activities

Potholing

- Method for Locating Utilities

What you can expect to see at the end of Project:

- Construction will occur mostly in grass areas off the road to allow for traffic to flow
- As pipe is laid under driveways, there will be temporary private driveway restrictions. Contractor will notify homeowners before they temporarily restrict the use of resident driveways.

What you can expect to see at the end of Project:

What you can expect to see at the end of Project:
